🎂 January 27, 2004

Research Interests

- Natural Language Processing (NLP)
- Ethical and Responsible Artificial Intelligence

Education

- **Master's Degree in Computer Science (M1)** Sep. 2026 – Present
Institut Galilée, Université Sorbonne Paris Nord, France – [🔗 univ-spn.fr](#)
 - **EUR Excellence Scholarship** (Graduate School of Research), awarded competitively: it funds the Master's degree and research on natural language processing at the LIPN, the university's computer science laboratory.
- **Bachelor's Degree in Computer Science, Specialisation in Artificial Intelligence, Honours (Mention Bien)** Sep. 2022 – Dec. 2025
University of Abomey-Calavi (UAC), Abomey-Calavi, Benin – [🔗 uac.bj](#)
 - Class Representative for the Artificial Intelligence programme (2022 – 2025).
 - Coordinator of the Artificial Intelligence and Internet of Things Club (2023 – 2025).
- **Scientific Baccalaureate, Series D, Honours (Mention Bien)** Sep. 2016 – Jun. 2022
Collège Catholique Père Aupiais, Cotonou, Benin

Awards and Distinctions

- **2nd Prize** – Benin Multimodal and Multilingual AI Hackathon (SENIA) May 2024
 - Development of *Alodometo*, a digital inclusion solution based on multimodal translation (French–Fon).
 - Resources: [🔗 article](#); [🔗 prototype](#)
- **Winner (1st Prize)** – Teckbot Robotics Challenge ([🔗 trc.tekbot.io](#)) Jan. 2024
 - Design of an autonomous waste collection and sorting robot with computer vision capabilities.
 - Resources: [🔗 video](#)
- **Winner (1st Prize)** – Deep Learning IndabaX Benin Hackathon Dec. 2023
 - Development of a medical appointment scheduling application with an AI-powered chatbot and case prioritisation.

Professional Experience

- **Artificial Intelligence Engineer** May 2025 – Present
Ministry of Foreign Affairs of Benin, Cotonou ([🔗 diplomatie.gouv.bj](#))
 - Leading the deployment of an AI-based internal strategic intelligence system in support of Beninese diplomacy.
 - Analysis of [epass.bj](#) data to optimise the online passport renewal process for Beninese nationals abroad.
 - Design of Power BI dashboards and monitoring of consular service indicators (passport renewal, consular registration, proxy, laissez-passer).
 - Production of reports and transmission of decision-support analyses to Beninese embassies abroad.
 - Design and development of a diplomatic document management platform (validation workflow, analytics, diplomatic style assistant, decision support).
 - Analysis of [tradux.gouv.bj](#) data to monitor official translation and authentication activities.
- **Data Analysis Intern** Aug. 2024 – Apr. 2025
Ministry of Foreign Affairs of Benin, Cotonou ([🔗 diplomatie.gouv.bj](#))
 - Implementation of Power BI dashboards to monitor e-consular services and key performance indicators.
 - Data analysis on [service-public.bj](#) and [tradux.gouv.bj](#).
 - Internship grade: 18/20, **Distinction (Mention Très bien)**.

Professional Experience

- **Data Science Intern**

Jun. 2024 – Aug. 2024

ICT Consulting, Godomey (🔗 ict-consulting.tech)

- Contribution to the prototyping of FarmAdvisor, a decision-support solution for farmers (🔗 farmadvisor.bj).
- Database structuring, IoT sensor-based data collection, and implementation of AI models.
- Internship grade: 17/20, **Distinction (Mention Très bien)**.

Research Projects

- **Project Lead (Southern Pole, Benin)**

Oct. 2024 – May 2025

Automated Thesis Defence Scheduling System at the University of Abomey-Calavi

Project funded by ARES Belgium (EUR 20,000)

- Modelling of the thesis defence scheduling problem using constraint programming.
- Optimisation of jury availability, room allocation, and session organisation.
- Project report: 🔗 drive.google.com

- **Bachelor's Thesis**

2025

University of Abomey-Calavi (UAC)

Design of an Intelligent Platform for the Management and AI-Assisted Drafting of Verbal

Notes: The Case of the Ministry of Foreign Affairs

- Academic grade: 17.5/20, **Distinction (Mention Très bien)**.
- Thesis document: 🔗 drive.google.com

Leadership and Community Engagement

- **Instructor in Artificial Intelligence**

Jan. 2024 – May 2025

AI and Internet of Things Club, IFRI, University of Abomey-Calavi

- Coordination and facilitation of weekly workshops on AI and machine learning.

- **Instructor in AI Tools and Applications for Diplomacy**

Mar. 2024 – May 2025

Ministry of Foreign Affairs of Benin

- Design and delivery of an 8-session training programme for staff of the Directorate-General of External Relations.

- **Local Organiser** – Deep Learning IndabaX Benin

2025

- **Speaker** – Benin Workshop on Artificial Intelligence (BWAi), Cotonou

Nov. 2024

- Topic: Development of a speech translation model for local-language documents (case of Fongbe).

- Presentation: 🔗 canva.com

- **Participant** – Deep Learning Indaba, Dakar, Senegal

Sep. 2024

- **Participant** – Deep Learning Indaba, Kigali, Rwanda

Aug. 2025

- **Software Developer and Communications Member**

Sep. 2023 – Present

FRIARE Africa (🔗 friare.org)

- Contribution to projects and communication initiatives promoting responsible AI in Africa.

- **Training Committee Coordinator**

Oct. 2023 – Present

Isheero (🔗 isheero.com)

- Planning, organisation, and facilitation of training programmes and workshops.

- **Volunteer** – Mathematics Summer Camps Benin (IMAC Benin initiative)

Feb. 2025 – Present

- Contribution to an intensive mathematics camp for secondary school students, with an introduction to emerging technologies.

Open-Source Projects

- **Automatic Detection of Foliar Diseases in Tomato Plants** – 🔗 [GitHub](#)

2024

Computer Vision · Python

- Real-time leaf disease detection model designed to support agricultural decision-making for farmers.

- **Conversational Assistant for Access to Beninese Public Services** – 🔗 [GitHub](#)

2025

NLP · Retrieval-Augmented Generation (RAG) · Python

- Chatbot enabling citizens to query information about Beninese public services in natural language.

- **Prediction of Chronic Kidney Disease (CKD) Stage** – 🔗 [GitHub](#)

2025

Machine Learning · Python

- Medical decision-support application predicting the progression stage of CKD from clinical data.
